

FASCIAL DISTORTION MODEL: TREATING THE SHOULDER, ANKLE AND KNEE

Nov. 30-Dec. 2, 2018 • The Pyramids • Indianapolis

Course Description

Sometimes referred to as Module 1, this introductory course is an excellent starting point on the journey of learning the fascial distortion model (FDM). FDM is an excellent modality to be used in the clinic, on the field, and in the emergency room for fast and effective results.

While there are some specific FDM techniques, emphasis will be placed on thinking and working in the model while using all manipulative modalities.

Attendees will be introduced to the theory of FDM while focusing on the shoulder, ankle and knee regions. Learn how FDM expands the toolbox you use to help more patients. This modality is valuable for any practitioner and no previous manipulation experience is required.

All medical providers are invited to attend, including DOs, MDs, PTs, OTs, PAs, NPs, DPMs, etc.

Course Times

Friday from 5 to 9 p.m.

Saturday and Sunday from 8 a.m. to 5 p.m.

Continuing Medical Education

20 credits of AOA Category 1-A CME anticipated.

Meal Information

Morning coffee and tea will be provided. Lunch will be provided Saturday and Sunday. Notify AAO Event Planner [Gennie Watts](#) of any special dietary needs no fewer than seven days in advance.

Course Location

The Pyramids, Building Three

3500 DePauw Blvd., Lower Level, Conference Rooms A and B
Indianapolis, IN 46268

Travel Arrangements

Course Director

Todd A. Capistrant, DO, MHA, earned both his doctor of osteopathic medicine degree and his master in health administration degree in 1997 from the Des Moines (Iowa) University College of Osteopathic Medicine. He is one of only three physicians in the United States who are currently certified to teach seminars on the FDM, and he is the president of the American Fascial Distortion Model Association.

Dr. Capistrant specializes in OMM, and he is certified by the American Board of Family Medicine. He is a member of the growing OMM department at the Tanana Valley Clinic in Fairbanks, Alaska, and he serves as a regional dean for the Pacific Northwest University of Health Sciences, College of Osteopathic Medicine in Yakima, Washington.

Dr. Capistrant is interested in working with athletes to maximize performance, dance medicine, and OMM for pregnant women. FDM allows for effective manipulative treatment for most musculoskeletal injuries including pulled muscles, fractures and frozen shoulders.
